BOOK REVIEWS

INFORMATION FOR AUTHORS

RADIODIAGNOSIS

Techniques/Subspecialities

Radiography

Does bowel preparation improve the quality of intravenous urography? 906
Foot axes and angles (Pictorial review), 968
The use of metoclopramide for the small bowel meal examination: pre-procedural *versus* peri-procedural oral administration, 1130

Ultrasound

External anal sphincter defects: correlation between preoperative anal endosonography and intraoperative findings, 6
Ultrasound diagnosis of polyorchidism (Case report), 78
Tunnelled central venous catheter insertion via the internal jugular vein using a dedicated portable ultrasound device (Short communication), 178

Ultrasound diagnosis of portocaval anastomosis in infants—a report of eight cases, 389
Transrectal ultrasound in the evaluation of cervical carcinoma and comparison with spiral computed tomography and magnetic resonance imaging, 610
Sonographic abnormalities of the thyroid gland following radiotherapy in survivors of childhood Hodgkin's disease, 617
Detection of early scirrhous carcinoma of the stomach by endoscopic ultrasonography (Short communication), 661
Endoanal ultrasound during contraction of the anal sphincter—improved definition and diagnostic accuracy (Short communication), 665
Colour Doppler ultrasound in renal artery stenosis: intrarenal waveform analysis, 810
Multiple highly reflective foci in the renal parenchyma are not specific for pseudoxanthoma elasticum (Case report), 871
Hysterosalpingo-contrast sonography (HyCoSy) using Echovist®-200 in the outpatient investigation of infertility patients, 910
Renal ultrasonic findings in sulphadiazine-induced renal failure, 925
Imaging of anorectal function (Commentary), 985
Vaginal endosonography to diagnose enterocoele, 996
Is sonographic flow imaging useful in the differential diagnosis of adrenal masses, 1005
Sludge in fetal gallbladder: natural history and neonatal outcome, 1017
The "veiled right kidney"—an ultrasound finding in retroperitoneal perforation of the duodenum (Case report), 1061
Safety of diagnostic ultrasound (Commentary), 1083
Lymphoscintigraphy and colour Doppler sonography in the assessment of leg oedema of unknown cause, 1117
Spectral pulsed Doppler sonography of renal vascular resistance in sickle cell disease: clinical implications, 1125

MRI

Computed tomography and magnetic resonance imaging findings in primitive neuroectodermal tumours in adults, 1
Evaluation of ^{1}H magnetic resonance spectroscopic imaging as a diagnostic tool for the lateralization of epileptogenic siezure foci, 15
Clinically suspected scaphoid fracture: a comparison of magnetic resonance imaging and bone scintigraphy, 109
Ganglioneuroma: computed tomography and magnetic resonance features, 114
Percutaneous varicocele embolization in the treatment of infertility (Correspondence), 197
Measurement of spin-lattice relaxation times with FLASH for dynamic MRI of the breast, 206
Field strength dependence of MRI contrast enhancement: phantom measurements and application to dynamic breast imaging, 215
Rapid assessment of left ventricular volume by short axis cine MRI, 221
The use of sodium ironedetate (Sytron) as an MRI rectal contrast agent (Short communication), 266
CT and MRI demonstration of hypothalamic and infundibular relapse in childhood acute lymphoblastic leukaemia (Case report), 269
MRI appearances of left sided Morgagni hernia containing liver (Case report), 278
MRA—how do I do it and why? (Commentary), 294
Posterior pituitary ectopia and hypopituitarism—magnetic resonance appearances of four cases and a review of the literature, 402
Application of the principle of optical phase-contrast microscopy to velocity phase-encoded MRI of blood flow in the aorta, 410
Magnetic resonance imaging-guided pre-operative breast localization using a "freehand technique" (Correspondence), 482
Magnetic resonance imaging in macromelia and macrodactyly, 502
Dynamic magnetic resonance mammography of both breasts following local excision and radiotherapy for breast carcinoma, 594
Acute subarachnoid haemorrhage: detection with magnetic resonance imaging, 601
MR imaging of fetal brain abnormalities using a HASTE sequence (Short communication), 668
MRI as an aid to the fitting of tracheo-oesophageal Blom–Singer valves post-laryngectomy, 704
MR imaging of juvenile papillomatosis of the breast (Case report), 867
Intravascular lipoma of the superior vena cava—CT and MRI appearances (Case report), 963
MRI of the pharynx in young patients with sleep disordered breathing, 1000
Observer variability in the interpretation of contrast-enhanced MRI of the breast, 1009
In vivo study of rabbit irradiated skeletal muscle by MRI—a long-term follow-up, 1026
Magnetic resonance imaging of primary lymphoma of the cauda equina (Case report), 1057
Usefulness of iron colloid-enhanced MRI in differentiating experimental hepatocellular carcinoma from hyperplastic nodule in rats: analysis by microautoradiography, 1139
MRI in the evaluation of late bone marrow changes following bone marrow transplantation, 1145
Varicella-zoster virus myelitis—serial MR findings (Case report), 1187
Lateral thyroid ectopia—CT and MRI findings (Case report), 1178

CT

Computed tomography and magnetic resonance imaging findings in primitive neuroectodermal tumours in adults, 1
Ganglioneuroma: computed tomography and magnetic resonance features, 114

Is computed tomography of the body overused? An audit of 2068 attendances in a large acute hospital, 126
Quantitative computed tomography for spinal bone mineral measurements in chronic renal failure, 132
Mobile fatty globules in benign cystic teratoma of the mediastinum (Case report), 186
CT and MRI demonstration of hypothalamic and infundibular relapse in childhood acute lymphoblastic leukaemia (Case report), 269
Oesophageal tumour volume measurement using spiral CT (Short communication), 344
Intracranial arterial calcification and ectasia in visual failure, 394
Paravesical suture granuloma resembling bladder carcinoma on CT scanning (Case report), 476
Nasolacrimal duct opacity on CT, 630
Caval halo (Correspondence), 883
Fast CT for aortic dissection, 900
Intravascular lipoma of the superior vena cava—CT and MRI appearances (Case report), 963
The quantification of renal function with enhanced computed tomography (Review article), 989
Agenesis of the right lung diagnosed by three-dimensional reconstruction of helical chest CT (Case report), 1052
CT appearances of intrathoracic Kaposi's sarcoma in patients with AIDS, 1104
Chest high resolution CT in adults with primary humoral immunodeficiency, 1108
Tuberculosis of the parotid gland—diagnosis by CT (Case report), 1181
Lateral thyroid ectopia—CT and MRI findings (Case report), 1178

Interventional radiology

Tunnelled central venous catheter insertion via the internal jugular vein using a dedicated portable ultrasound device (Short communication), 178
Embolization for ruptured superior mesenteric artery aneurysms, 296
Effects of microwave tissue coagulation on the livers of normal rabbits: a comparison of findings of image analysis and histopathological examination, 515
Bronchial to coronary artery anastomosis—a potential hazard in bronchial artery embolization (Case report), 570
Pregnancy after uterine artery embolization to control haemorrhage from gestational trophoblastic tumour, 624
Endovascular treatments for intracranial aneurysms (Review article), 891
The value of embolization therapy in painful osseous metastases from hepatocellular carcinomas; comparative study with radiation therapy (Short communication), 1042
Endovascular repair of abdominal aortic aneurysms (Pictorial review), 1069
Metallic endoprostheses in oesophageal carcinoma (Commentary), 1086

Angiography

Imaging of Takayasu arteritis in the acute stage (Case report), 189
Femoral angiography using the reverse shuffle technique (Correspondence), 283
Phrenic artery injury—a rare complication of percutaneous needle lung biopsy (Case report), 356
Caval halo (Correspondence), 883

Nuclear medicine

The need for caution when using the spleen to assess renal blood flow in renography (Case report), 82
Clinically suspected scaphoid fracture: a comparison of magnetic resonance imaging and bone scintigraphy, 109
Imaging of central nervous system sarcoidosis with gallium-67 single photon emission computed tomography (Case report), 192
Focal areas of increased renal tracer uptake on bone scans can mimic metastases in the lower ribs, 407
Renal Nuclear Medicine (Commentary), 491
Technetium-99m-HMPAO labelled leucocytes in the detection and monitoring of inflammatory bowel disease in children, 508
The significance of low grade right iliac fossa uptake on $^{99}Tc^{m}$-HMPAO labelled white cell scans, 914
Lymphoscintigraphy and colour Doppler sonography in the assessment of leg oedema of unknown cause, 1117
$^{99}Tc^{m}$ tetrofosmin uptake in mediastinal tumours, 1134
Role of MIBI breast scintigraphy in evaluation of palpable breast lesions, 1152
Acute segmental radiation nephritis on bone scintigraphy (Case report), 1175

Paediatric radiology

Ultrasound diagnosis of portocaval anastomosis in infants—a report of eight cases, 389
Technetium-99m-HMPAO labelled leucocytes in the detection and monitoring of inflammatory bowel disease in children, 508
The radiological spectrum of vertically-acquired HIV infection (Pictorial review), 777

Oncology

MRI in the evaluation of late bone marrow changes following bone marrow transplantation, 1145

Breast

Radiographers as film readers in screening mammography: an assessment of competence under text and screening conditions, 10
Comparative study of dose values and image quality in mammography in the Madrid area, 42
The value of the second view in screening mammography, 105
Measurement of spin-lattice relaxation times with FLASH for dynamic MRI of the breast, 206
Field strength dependence of MRI contrast enhancement: phantom measurements and application to dynamic breast imaging, 215

Microcalcification clustering parameters in breast disease: a morphometric analysis of radiographs of excision specimens, 326
Prospective assessment of a new graduated hookwire for the localization of impalpable breast lesions (Short communication), 341
Magnetic resonance imaging-guided pre-operative breast localization using a "freehand technique" (Correspondence), 482
Dynamic magnetic resonance mammography of both breasts following local excision and radiotherapy for breast carcinoma, 594
MR imaging of juvenile papillomatosis of the breast (Case report), 867
Observer variability in the interpretation of contrast-enhanced MRI of the breast, 1009
Role of MIBI breast scintigraphy in evaluation of palpable breast lesions, 1152

Genitourinary tract

General urinary tract

The need for caution when using the spleen to assess renal blood flow in renography (Case report), 82
Computer assisted determination of the dose–area product in retrograde urethrography, 262
Renal pseudotumours mimicking tumour recurrence after partial nephrectomy (Case report), 359
Focal areas of increased renal tracer uptake on bone scans can mimic metastases in the lower ribs, 407
Paravesical suture granuloma resembling bladder carcinoma on CT scanning (Case report), 476
Renal Nuclear Medicine (Commentary), 491
Renal function and the excretion of contrast agents (Short communication), 567
Image quality and safety after iodixanol in intravenous urography; a comparison with iohexol, 699
Colour Doppler ultrasound in renal artery stenosis: intrarenal waveform analysis, 810
Multiple highly reflective foci in the renal parenchyma are not specific for pseudoxanthoma elasticum (Case report), 871
Does bowel preparation improve the quality of intravenous urography? 906
Renal ultrasonic findings in sulphadiazine-induced renal failure, 925
The quantification of renal function with enhanced computed tomography (Review article), 989
Spectral pulsed Doppler sonography of renal vascular resistance in sickle cell disease: clinical implications, 1125
Acute segmental radiation nephritis on bone scintigraphy (Case report), 1175

Gynaecology

Transrectal ultrasound in the evaluation of cervical carcinoma and comparison with spiral computed tomography and magnetic resonance imaging, 610
Pregnancy after uterine artery embolization to control haemorrhage from gestational trophoblastic tumour, 624
Hysterosalpingo-contrast sonography (HyCoSy) using Echovist®-200 in the outpatient investigation of infertility-patients, 910
Vaginal endosonography to diagnose enterocoele, 996

Obstetrics

MR imaging of fetal brain abnormalities using a HASTE sequence (Short communication), 668
Sludge in fetal gallbladder: natural history and neonatal outcome, 1017

Male genital system

Ultrasound diagnosis of polyorchidism (Case report), 78
Percutaneous varicocele embolization in the treatment of infertility (Correspondence), 197
A rapidly expanding testicular mass due to a ruptured ovarian follicle (Case report), 366

Interventional procedures

Percutaneous varicocele embolization in the treatment of infertility (Correspondence), 197

Central nervous system

Computed tomography and magnetic resonance imaging findings in primitive neuroectodermal tumours in adults, 1
Evaluation of ^{1}H magnetic resonance spectroscopic imaging as a diagnostic tool for the lateralization of epileptogenic siezure foci, 15
Ganglioneuroma: computed tomography and magnetic resonance features, 114
Imaging of central nervous system sarcoidosis with gallium-67 single photon emission computed tomography (Case report), 192
CT and MRI demonstration of hypothalamic and infundibular relapse in childhood acute lymphoblastic leukaemia (Case report), 269
Pseudotumoral brain lesion as the presenting feature of sarcoidosis (Case report), 272
Acute haemorrhagic presentation of trigeminal neuroma (Case report), 363
Pontine haemorrhage following iohexol lumbar myelography (Case report), 368
3M Mayneord Memorial Lecture: Functional brain imaging—an overview (Review article), 493
Acute subarachnoid haemorrhage: detection with magnetic resonance imaging, 601
Patterns of chronic adhesive arachnoiditis following Myodil myelography: the significance of spinal canal stenosis and previous surgery, 693
Endovascular treatments for intracranial aneurysms (Review article), 891
Sequential bilateral carotid dissection leading to Raeder's syndrome (Case report), 1184

Head and neck

Orbits

Nasolacrimal duct opacity on CT, 630

Pituitary

Posterior pituitary ectopia and hypopituitarism—magnetic resonance appearances of four cases and a review of the literature, 402

Dental

Sensitometric and image quality performance of "rapid" intraoral film processing techniques, 49

Mandibular bone mineral density as a predictor of skeletal osteoporosis, 1019

Ear, nose and throat

Pleural encasement secondary to acinar adenocarcinoma of the submandibular gland (Case report), 276

Sonographic abnormalities of the thyroid gland following radiotherapy in survivors of childhood Hodgkin's disease, 617

MRI as an aid to the fitting of tracheo-oesophageal Blom–Singer valves post-laryngectomy, 704

MRI of the pharynx in young patients with sleep disordered breathing, 1000

Respiratory tract

Non-Hodgkin's lymphoma presenting as an encasing pleural mass (Correspondence), 89

Early focal abnormalities on chest radiographs and respiratory prognosis in children with cystic fibrosis, 122

Mobile fatty globules in benign cystic teratoma of the mediastinum (Case report), 186

Pleural encasement secondary to acinar adenocarcinoma of the submandibular gland (Case report), 276

MRI appearances of left sided Morgagni hernia containing liver (Case report), 278

Phrenic artery injury—a rare complication of percutaneous needle lung biopsy (Case report), 356

Pneumocystis carinii pneumonia presenting as a cavitating lung lesion in non-HIV immunosuppressed patients (Case report), 472

Imaging in bronchiectasis (Review article), 589

Agenesis of the right lung diagnosed by three-dimensional reconstruction of helical chest CT (Case report), 1052

CT appearances of intrathoracic Kaposi's sarcoma in patients with AIDS, 1104

Pseudomonas aeruginosa bronchopulmonary infection in patients with advanced human immunodeficiency virus disease, 1099

Chest high resolution CT in adults with primary humoral immunodeficiency, 1108

Cardiovascular system

Acquired heart disease

Rapid assessment of left ventricular volume by short axis cine MRI, 221

Application of the principle of optical phase-contrast microscopy to velocity phase-encoded MRI of blood flow in the aorta, 410

Congenital heart disease

Bronchial to coronary artery anastomosis—a potential hazard in bronchial artery embolization (Case report), 570

Great vessels

Imaging of Takayasu arteritis in the acute stage (Case report), 189

Fast CT for aortic dissection, 900

Intravascular lipoma of the superior vena cava—CT and MRI appearances (Case report), 963

Endovascular repair of abdominal aortic aneurysms (Pictorial review), 1069

Peripheral arterial system

Femoral angiography using the reverse shuffle technique (Correspondence), 283

Intracranial arterial calcification and ectasia in visual failure, 394

Sequential bilateral carotid dissection leading to Raeder's syndrome (Case report), 1184

Peripheral venous system

Ultrasound diagnosis of portocaval anastomosis in infants—a report of eight cases, 389

Lymphoscintigraphy and colour Doppler sonography in the assessment of leg oedema of unknown cause, 1117

Lymphatic system

Non-Hodgkin's lymphoma presenting as an encasing pleural mass (Correspondence), 89

Embolization for ruptured superior mesenteric artery aneurysms, 296

Lymphoscintigraphy and colour Doppler sonography in the assessment of leg oedema of unknown cause, 1117

Skeletal

Congenital

Magnetic resonance imaging in macromelia and macrodactyly, 502

Sclerotic skeletal haemangiomatosis presenting with spinal cord compression—CT and MRI findings (Case report), 965

Trauma

Clinically suspected scaphoid fracture: a comparison of magnetic resonance imaging and bone scintigraphy, 109

Tumour

The value of embolization therapy in painful osseous metastases from hepatocellular carcinomas; comparative study with radiation therapy (Short communication), 1042

MRI in the evaluation of late bone marrow changes following bone marrow transplantation, 1145

Spine

Vertebral deformity in the thoracic spine in post-menopausal women: value of lumbar spine bone density, 137

Patterns of chronic adhesive arachnoiditis following Myodil myelography: the significance of spinal canal stenosis and previous surgery, 693

Sclerotic skeletal haemangiomatosis presenting with spinal cord compression—CT and MRI findings (Case report), 965

Magnetic resonance imaging of primary lymphoma of the cauda equina (Case report), 1057

Joints

Foot axes and angles (Pictorial review), 968

Bone densitometry

Quantitative computed tomography for spinal bone mineral measurements in chronic renal failure, 132

Vertebral deformity in the thoracic spine in post-menopausal women: value of lumbar spine bone density, 137

Appendicular measurements in screening women for low axial bone mineral density, 234

Assessment of osteopenia from spine radiographs using two different methods: the Chingford study, 451

Mandibular bone mineral density as a predictor of skeletal osteoporosis, 1019

Digestive system

Salivary glands

Pleural encasement secondary to acinar adenocarcinoma of the submandibular gland (Case report), 276

Tuberculosis of the parotid gland—diagnosis by CT (Case report), 1181

Pharynx/oesophagus

Oesophageal tumour volume measurement using spiral CT (Short communication), 344

Metallic endoprostheses in oesophageal carcinoma (Commentary), 1086

Stomach

Detection of early scirrhous carcinoma of the stomach by endoscopic ultrasonography (Short communication), 661

Small intestine

Bladder opacification following enteral iopamidol as a sign of occult intestinal infarction (Case report), 76

Technetium-99m-HMPAO labelled leucocytes in the detection and monitoring of inflammatory bowel disease in children, 508

Imaging of patients with pancreaticobiliary diversion for obesity: post-operative anatomy and findings in small bowel obstruction, 708

Identification of the transverse mesocolon and root of small bowel mesentery; a new sign of pneumoperitoneum (Case report), 774

Abscess of the adductor muscles of the thigh—an unusual complication of Crohn's disease (Case report), 865

The significance of low grade right iliac fossa uptake on $^{99}Tc^{m}$-HMPAO labelled white cell scans, 914

The "veiled right kidney"—an ultrasound finding in retroperitoneal perforation of the duodenum (Case report), 1061

The use of metoclopramide for the small bowel meal examination: pre-procedural *versus* peri-procedural oral administration, 1130

Colon and rectum

External anal sphincter defects: correlation between pre-operative anal endosonography and intraoperative findings, 6

Bladder opacification following enteral iopamidol as a sign of occult intestinal infarction (Case report), 76

Air *versus* carbon dioxide insufflation in double contrast barium enemas: the role of active gaseous drainage (Correspondence), 89

Computerized planimetry in the objective assessment of the antispasmodic effect of Zamifenacin in double contrast barium enemas, 301

Technetium-99m-HMPAO labelled leucocytes in the detection and monitoring of inflammatory bowel disease in children, 508

Bipedal lymphography in the management of carcinoma of the anal canal, 632

Endoanal ultrasound during contraction of the anal sphincter—improved definition and diagnostic accuracy (Short communication), 665

Identification of the transverse mesocolon and root of small bowel mesentery; a new sign of pneumoperitoneum (Case report), 774

The clinical and radiological features of cholecystocolic fistulae, 804

Imaging of anorectal function (Commentary), 985

Biliary

Malignant haemobilia detected in the gallbladder—retrograde cholangiographic findings (Case report), 79

The clinical and radiological features of cholecystocolic fistulae, 804

Sludge in fetal gallbladder: natural history and neonatal outcome, 1017

Calcified pancreas and bile ducts from schistosomiasis—a report of two cases (Case report), 1064

Liver

Percutaneous varicocele embolization in the treatment of infertility (Correspondence), 197

Effects of microwave tissue coagulation on the livers of normal rabbits: a comparison of findings of image analysis and histopathological examination, 515

Quantitative perfusion parameters of focal nodular hyperplasia and normal liver parenchyma as determined by electron beam tomography (Correspondence), 577

Usefulness of iron colloid-enhanced MRI in differentiating experimental hepatocellular carcinoma from hyperplastic nodule in rats: analysis by microautoradiography, 1139

Pancreas

Lymphoepithelial cyst of the pancreas (Case report), 76

Soft tissues

Magnetic resonance imaging in macromelia and macrodactyly, 502

Abscess of the adductor muscles of the thigh—an unusual complication of Crohn's disease (Case report), 865

Endocrine system

Thyroid

Sonographic abnormalities of the thyroid gland following radiotherapy in survivors of childhood Hodgkin's disease, 617

Lateral thyroid ectopia—CT and MRI findings (Case report), 1178

Adrenals

Rupture and growth of adrenal myelolipoma in two patients (Case report), 873

Is sonographic flow imaging useful in the differential diagnosis of adrenal masses, 1005

Mediastinum

Mobile fatty globules in benign cystic teratoma of the mediastinum (Case report), 186

$^{99}Tc^{m}$ tetrofosmin uptake in mediastinal tumours, 1134

Contrast media

Percutaneous varicocele embolization in the treatment of infertility (Correspondence), 197

The use of sodium ironedetate (Sytron) as an MRI rectal contrast agent (Short communication), 266

Pontine haemorrhage following iohexol lumbar myelography (Case report), 368

Renal function and the excretion of contrast agents (Short communication), 567

Image quality and safety after iodixanol in intravenous urography; a comparison with iohexol, 699

Contrast media as extracellular fluid space markers: adaptation of the central volume theorem, 717

Anaphylactic IgE and IgG_1 production for hapten can be enhanced by contrast media, 920

Renal ultrasonic findings in sulphadiazine-induced renal failure, 925

The quantification of renal function with enhanced computed tomography (Review article), 989

Clinical audit and management

Radiographers as film readers in screening mammography: an assessment of competence under text and screening conditions, 10

Is computed tomography of the body overused? An audit of 2068 attendances in a large acute hospital, 126

The changing world of radiography education (Commentary), 489

Specification and initial evaluation of a multiple application teleradiology system, 735

Skill mix for radiologists and radiographers (Commentary), 887

Radiographic skills learning: procedure simulation using adaptive hypermedia, 938

Some cost-benefit considerations for PACS: a radiological perspective (Review article), 1089

Plain film reporting by radiographers—a feasibility study (Short communication), 1171

PHYSICS AND TECHNOLOGY

Diagnostic radiology physics

Conventional

Dose–area product values in frequently performed complex paediatric radiology examinations, 160

Assessment of target recovery after TV camera saturation in X-ray fluoroscopy using a personal computer with frame-grabber, 415

Cross-calibration of a fan-beam X-ray densitometer with a pencil-beam system, 522

Contrast reduction using energy dependent intensifying screens, 563

Clinical evaluation of manual and automatic exposure control techniques in film-based chest radiography, 650

Use of the output video signal for dynamic range, brightness control and image memory assessment in X-ray fluoroscopy (Short communication), 855

CT

Calculation of computed tomography dose index to effective dose conversion factors based on measurement of the dose profile along the fan shaped beam, 33

Oesophageal tumour volume measurement using spiral CT (Short communication), 344

Dual compression mammography using computed radiography (Correspondence), 373

Transrectal ultrasound in the evaluation of cervical carcinoma and comparison with spiral computed tomography and magnetic resonance imaging, 610

Dental

Sensitometric and image quality performance of "rapid" intraoral film processing techniques, 49

The imaging performance of a storage phosphor system for dental radiography, 256

Mammography

Checking the consistency of sensitometers and film processors in a mammographic screening programme, 143

Daily quality control programme in mammography, 148

An experimental investigation of the effect of light-box luminance on the detection of low contrast objects in mammography, 153
A comparison of fine and medium screens for mammography (Short communiction), 182
Consistency of film optical density in mammographic screening programmes, 306
Dose and imge quality in mammography with an automatic beam quality system, 555
Flat and curved crystal spectrography for mammographic X-ray sources, 636
Clinical evaluation of manual and automatic exposure control techniques in film-based chest radiography, 650
Reference ranges of bone mineral density for women in southern England: the impact of local data on the diagnosis of osteoporosis, 655
Latent image fading in mammography (Correspondence), 683
Survey on image quality and dose levels used in Europe for mammography, 762
Kilovoltage measurement with rhodium target and filters on mammography X-ray machines (Short communication), 769

Image processing/perception/quality/image analysis

Comparative study of dose values and image quality in mammography in the Madrid area, 42
Charge-coupled device optical density range enhancement and the effect on radiographic image segmentation (Short communication), 59
Microcalcification clustering parameters in breast disease: a morphometric analysis of radiographs of excision specimens, 326
Focal spot sizes in dual-track Mo and Rh target mammography X-ray tubes (Correspondence), 1077

QA/protection

Use of the European image quality criteria for screen–film comparison—application for asymmetric systems, 64
The potential for dose reduction in diagnostic radiology using low attenuation materials in table tops, 249
Transmission values for X-ray mattresses (Correspondence), 283
A study of dose reduction using digital luminescence radiography for lateral skull radiography, 311
Dose–area product measurements in paediatric radiography, 318
Effective doses for coronary angiography, 426
Patient doses from CT in New Zealand and a simple method for estimating effective dose, 432
A comparison of doses and techniques between specialist and non-specialist centres in the diagnostic X-ray imaging of children, 437
A burning question (Correspondence), 481
Occupational dose to the radiographer in dual X-ray absorptiometry: a comparison of pencil-beam and fan-beam systems, 539
Radiation protection supervisors (Commentary), 791
Radiation protection for radiologists (Commentary), 793
Staff dose reduction during coronary angiography using low framing speed (Short communication), 860
1996 International Congress on Radiation Protection (Commentary), 889
Radiology in the neonatal intensive care unit: dose reduction and image quality, 929
Scatter dose estimation based on dose–area product and the specification of radiation barriers, 1032
Patient dose measurements from femoral angiography, 1159
Occupational dose to the radiographer in dual X-ray absorptiometry (Correspondence), 1196

Dose calculation/measurement/instrumentation

Comparative study of dose values and image quality in mammography in the Madrid area, 42
Computer assisted determination of the dose–area product in retrograde urethrography, 262
Patient doses in hysterosalpingography, 751
Influence of dose reduction recommendations on changes in chest radiography techniques, 755
Dose reduction in double contrast barium enema by use of low fluoroscopic current, 852

Bone densitometry

Ultrasound velocity and attenuation at different skeletal sites compared with bone mineral density measured using dual energy X-ray absorptiometry, 25
Radiological assessment of a new bone densitometer—the Lunar EXPERT, 335
Patient doses in bone mineral densitometry, 422
A portable system for measuring bone mineral density in the pre-term neonatal forearm, 532
Reference ranges of bone mineral density for women in southern England: the impact of local data on the diagnosis of osteoporosis, 655
Spatial distribution of femoral bone mineral in dual energy X-ray absorptiometry images: a possible technique to improve discrimination between normal and osteoporotic patients, 743
Concordance and precision of dual X-ray absorptiometry with a 10 s scan, 816
Mandibular bone mineral density as a predictor of skeletal osteoporosis, 1019

Radiotherapy physics

Photon therapy

Portal imaging with film-cassette combinations: what film should we use? (Short communication), 70

Brachytherapy

Treatment of carcinomas of the uterine cervix which remain bulky after initial external beam radiotherapy: a pilot study using integrated cytotoxic chemotherapy prior to brachytherapy, 165

The influence of the number of fractions and bi-exponential repair kinetics on biological equivalence in pulsed brachytherapy, 457

Equipment/linear accelerators

A system for remote monitoring of a hospital linear accelerator (Short communication), 469

Radiation properties of a miniature X-ray device for radiosurgery, 544

Performance characteristics of the Pantak DXT-300 kilovoltage X-ray treatment machine, 726

Radiotherapy imaging/simulation

Comparison of portal imaging and megavoltage verification films for conformal pelvic irradiation (Pictorial review), 1191

Treatment planning/dose computation

The influence of air cavities on the optic chiasm dose during pituitary radiotherapy for acromegaly, 723

Localization of the prostatic apex for radiotherapy planning: a comparison of two techniques, 821

QA/protection

Dose rates and energy spectra in the maze of a linear accelerator treatment room (Correspondence), 977

External radiation protection audit in National Health Service hospitals, 1038

Nuclear medicine

In vitro measurements

3M Mayneord Memorial Lecture: Functional brain imaging—an overview (Review article), 493

QA/protection

Estimates of radiation dose to National Health Service workers in Northamptonshire from raised radon levels (Short communication), 72

Modelling/image processing

Evaluation of palpable breast masses with ^{201}Tl scintigraphy (Correspondence), 785

Ultrasound

Doppler

Accuracy of maximum velocity estimates made using Doppler ultrasound systems, 172

Colour Doppler ultrasound in renal artery stenosis: intrarenal waveform analysis, 810

Instrumentation/QA

Ultrasound velocity and attenuation at different skeletal sites compared with bone mineral density measured using dual energy X-ray absorptiometry, 25

Therapy/safety

Safety of diagnostic ultrasound (Commentary), 1083

Magnetic resonance

Instrumentation/imaging

Measurement of spin-lattice relaxation times with FLASH for dynamic MRI of the breast, 206

Field strength dependence of MRI contrast enhancement: phantom measurements and application to dynamic breast imaging, 215

MRA—how do I do it and why? (Commentary), 294

Dynamic magnetic resonance mammography of both breasts following local excision and radiotherapy for breast carcinoma, 594

Acute subarachnoid haemorrhage: detection with magnetic resonance imaging, 601

Transrectal ultrasound in the evaluation of cervical carcinoma and comparison with spiral computed tomography and magnetic resonance imaging, 610

RADIOTHERAPY AND ONCOLOGY

Clinical systems

Head and neck

Early tumour response and treatment toxicity after hyperfractionated radiotherapy in nasopharyngeal carcinoma, 241

Pleural encasement secondary to acinar adenocarcinoma of the submandibular gland (Case report), 276

A method of brachytherapeutic treatment of tracheal stoma recurrence in head and neck cancer (Short communication), 348

Total craniofacial photon shell technique for radiotherapy of extensive angiosarcomas of the head (Short communication), 351

Risk factors and dose–effect relationship for osteoradionecrosis after hyperfractionated and conventionally fractionated radiotherapy for oral cancer, 847

Malignant mesothelioma of tunica vaginalis testis presenting with spinal metastasis—report of two cases (Case report), 1067

Skin

Merkel cell carcinoma of the skin: imaging and clinical features in 93 cases, 226

Squamous cell carcinoma of the skin metastasizing to the breast—imaging findings (Case report), 678

Gynaecology

Low dose rate and high dose rate intracavitary brachytherapy in a patient with carcinoma of the cervix, (Case report), 84

Treatment of carcinomas of the uterine cervix which remain bulky after initial external beam radiotherapy: a pilot study using integrated cytotoxic chemotherapy prior to brachytherapy, 165

Incidence and possible aetiological factors in the development of pelvic insufficiency fractures following radical radiotherapy, 548

Transrectal ultrasound in the evaluation of cervical carcinoma and comparison with spiral computed tomography and magnetic resonance imaging, 610

Pregnancy after uterine artery embolization to control haemorrhage from gestational trophoblastic tumour, 624
Fracture of central intrauterine tube following insertion of high dose rate intracavitary applicator (Case report), 671
Brachytherapy—clinical dosimetry and the integration of therapies of gynaecological cancer (Commentary), 689
Bladder dose estimation during intracavitary brachytherapy for carcinoma of the cervix using a single line source system, 953

Genitourinary

Mobile fatty globules in benign cystic teratoma of the mediastinum (Case report), 186
A rapidly expanding testicular mass due to a ruptured ovarian follicle (Case report), 366
Paravesical suture granuloma resembling bladder carcinoma on CT scanning (Case report), 476
Localization of the prostatic apex for radiotherapy planning: a comparison of two techniques, 821
CT–MRI fusion for 3D conformal prostate radiotherapy: use in patients with altered pelvic anatomy (Short communiction), 1165

Gastrointestinal

Oesophageal tumour volume measurement using spiral CT (Short communication), 344
Kaposi's sarcoma of the rectum—treatment with radiation therapy (Case report), 573
Bipedal lymphography in the management of carcinoma of the anal canal, 632
Detection of early scirrhous carcinoma of the stomach by endoscopic ultrasonography (Short communication), 661
The value of embolization therapy in painful osseous metastases from hepatocellular carcinomas; comparative study with radiation therapy (Short communication), 1042
A technique for delivering carbogen with high dose rate intraluminal brachytherapy in carcinoma of the oesophagus; early results and toxicity (Short communication), 1049
Metallic endoprostheses in oesophageal carcinoma (Commentary), 1086
Usefulness of iron colloid-enhanced MRI in differentiating experimental hepatocellular carcinoma from hyperplastic nodule in rats: analysis by microautoradiography, 1139

Lung

$^{99}Tc^{m}$ tetrofosmin uptake in mediastinal tumours, 1134

Breast

Dynamic magnetic resonance mammography of both breasts following local excision and radiotherapy for breast carcinoma, 594
Long-term cardiac mortality after radiotherapy of breast cancer—application of the relative seriality model, 839

Leukaemia

CT and MRI demonstration of hypothalamic and infundibular relapse in childhood acute lymphoblastic leukaemia (Case report), 269
Late aggressive meningioma following prophylactic cranial irradiation for acute lymphoblastic leukaemia (Correspondence), 481
MRI in the evaluation of late bone marrow changes following bone marrow transplantation, 1145

Myeloma

Non-Hodgkin's lymphoma presenting as an encasing pleural mass (Correspondence), 89

Hodgkin's lymphoma

Sonographic abnormalities of the thyroid gland following radiotherapy in survivors of childhood Hodgkin's disease, 617
Severe fibrosis in a patient with scleroderma and previous radiotherapy—a case report and literature review (Case report), 1055
Magnetic resonance imaging of primary lymphoma of the cauda equina (Case report), 1057

Non-Hodgkin's lymphoma

Non-Hodgkin's lymphoma presenting as an encasing pleural mass (Correspondence), 89
Sonographic abnormalities of the thyroid gland following radiotherapy in survivors of childhood Hodgkin's disease, 617

Paediatric tumours

Severe fibrosis in a patient with scleroderma and previous radiotherapy—a case report and literature review (Case report), 1055
MRI in the evaluation of late bone marrow changes following bone marrow transplantation, 1145

Neuro-oncology

Late aggressive meningioma following prophylactic cranial irradiation for acute lymphoblastic leukaemia (Correspondence), 481
The influence of air cavities on the optic chiasm dose during pituitary radiotherapy for acromegaly, 723

Thyroid

Malignant teratoma in the thyroid gland (Case report), 879

Clinical radiotherapy

External beam

Incidence and possible aetiological factors in the development of pelvic insufficiency fractures following radical radiotherapy, 548

Kaposi's sarcoma of the rectum—treatment with radiation therapy (Case report), 573
Dose rates and energy spectra in the maze of a linear accelerator treatment room (Correspondence), 977

3D treatment planning/normal tissue sparing
The influence of air cavities on the optic chiasm dose during pituitary radiotherapy for acromegaly, 723
Localization of the prostatic apex for radiotherapy planning: a comparison of two techniques, 821
CT–MRI fusion for 3D conformal prostate radiotherapy: use in patients with altered pelvic anatomy (Short communiction), 1165

Real time portal imaging
Portal imaging with film-cassette combinations: what film should we use? (Short communication), 70
Comparison of portal imaging and megavoltage verification films for conformal pelvic irradiation (Pictorial review), 1191

Brachytherapy
Low dose rate and high dose rate intracavitary brachytherapy in a patient with carcinoma of the cervix, (Case report), 84
Treatment of carcinomas of the uterine cervix which remain bulky after initial external beam radiotherapy: a pilot study using integrated cytotoxic chemotherapy prior to brachytherapy, 165
A method of brachytherapeutic treatment of tracheal stoma recurrence in head and neck cancer (Short communication), 348
Brachytherapy—clinical dosimetry and the integration of therapies of gynaecological cancer (Commentary), 689
Bladder dose estimation during intracavitary brachytherapy for carcinoma of the cervix using a single line source system, 953
The absolute signal-to-noise ratio in MRI acceptance testing (Short communication), 1045

Altered fractionation
Early tumour response and treatment toxicity after hyperfractionated radiotherapy in nasopharyngeal carcinoma, 241

Toxicity and symptom management
Long-term cardiac mortality after radiotherapy of breast cancer—application of the relative seriality model, 839
Risk factors and dose–effect relationship for osteoradionecrosis after hyperfractionated and conventionally fractionated radiotherapy for oral cancer, 847

Supportive care and quality of life
Pain control
Radiation prevention of heterotopic ossification after bone and joint surgery in sites other than hips (Case report), 673

General
Oncology at the BIR (Commentary), 293
Focal areas of increased renal tracer uptake on bone scans can mimic metastases in the lower ribs, 407

RADIOBIOLOGY
Biological basis of radiological protection
Occupational and medical exposures
Estimates of radiation dose to National Health Service workers in Northamptonshire from raised radon levels (Short communication), 72
A burning question (Correspondence), 481

Radiobiology as applied to radiotherapy
Normal tissue toxicity
In vivo study of rabbit irradiated skeletal muscle by MRI—a long-term follow-up, 1026

Late tissue effects
Modulation of normal tissue responses to radiation (Correspondence), 374

Dose rate
Low dose rate and high dose rate intracavitary brachytherapy in a patient with carcinoma of the cervix, (Case report), 84
Development of an experimental model for high dose rate endocavitary irradiation of the rat rectum, 946

Cell proliferation
Effects of radiation on the cell proliferation kinetics of epithelial tissues—therapeutic implications (Review article), 795

Mathematical models
Dose fractionation/dose rate
The influence of the number of fractions and bi-exponential repair kinetics on biological equivalence in pulsed brachytherapy, 457

Tumour proliferation kinetics
The reduction of tumour control with increasing overall time: mathematical considerations, 830

LECTURES AND ADDRESSES
1995 3M Mayneord Memorial Lecture: Functional brain imaging—an overview (Review article), 493

EDUCATION
Size is not important (Case of the month), 87
A child at heart (Case of the month), 195
Bleeding and cholangiographic filling defects—an unavoidable link (Case of the month), 281
Calicified leg (Case of the month), 371
That's torn it! (Case of the month), 479
A pulmonary embolus, or what? (Case of the month), 575
"Air-in a view" (Case of the month), 681

A patient with chest pain (Case of the month), 783
Painful ankle swelling—diagnosis by MRI (Case of the month), 881
A lytic lesion in bone (Case of the month), 975
A curious cause of a paediatric abdominal mass (Case of the month), 1075
The lateral cervical spine in major trauma (Case of the month), 1197
